News for June 2013

The Summer season is here and this is a perfect time to think about summer fun!

Where to find my photos on the web:

With ebay will no longer allowing me to list nude photos in the art category, all future nude prints must be in the Adults Only section.

Because of this many international customers and fans can no longer view or purchase my photos.

So I am now uploading more of my photos to additional sites including:

Model Spotlight

Wenona

For June my feature model is Wenona.

I have over a 1000 photos of this beautiful model with her nice tanned skin, dark hair and tight flexible body.

Wenona is the perfect foot, leg and butt model with her perfect features. She is also a very flexible model able to get in many fun and erotic poses.

We have shot both in the studio, and at my home providing b & w art and color glamor photos.
